

## **TBI Considerations for Adult and Pediatric Populations**

Presented by:

Katy Magee M.H.S., CCC-SLP/L, CBIS

Megan Lynch MA, CCC-SLP, CBIS

**When:** Tuesday, December 5, 2023

**Where:** Virtual Zoom Presentation

**Reservations:** Laura Gean (NSSLArsvp@gmail.com). **RSVP by Sunday, December 3rd**

The handout may be posted online prior to the meeting (per presenter preference).

**Activity Description:** An overview of Traumatic Brain Injuries in adult and pediatric populations will be provided. Prevalence, statistics, brain injury scales and severity levels will be reported. Lecture of assessments and interventions in adult and pediatric populations will lead to discussion of clinical consideration and case study review.

### **Agenda:**

6:00-6:30 pm	Registration and business meeting
6:30-6:35	Introductions and Agenda
6:35-6:40	Prevalence and Role of SLP
6:40-6:55	TBI Overview
6:55-7:10	TBI Assessment and Treatment
7:10-7:40	Pediatric TBI Assessment and Treatment
7:40-8:00	Pediatric and Adult Considerations
8:00-8:05	Resources
8:05-8:20	Case Studies
8:20-8:30	Questions

### **Learning Objectives:**

The participants will:

1. Define TBI and Disorders of Consciousness
2. Discuss evidence-based practice for assessment and interventions
3. State at least 3 developmental characteristics and developmental disruptions that may occur following a brain injury in specific developmental windows
4. Identify 3 risk factors for pediatric TBI
5. Implement evidence-based assessment and treatment information for adults and pediatrics with TBI into clinical practice
6. Analyze indicators for prognosis and need for education
