

## ABOUT THE SPEAKERS

### **Katy Magee M.H.S., CCC-SLP/L, CBIS**

Katy has been working as an SLP for over a decade. She entered the field working in the school systems and moved into the medical field about 8 years ago. Currently she works as a Senior Speech-Language Pathologist, specifically as the cognitive communication lab therapist at Shirley Ryan AbilityLab in Chicago, IL. She is a certified brain injury specialist, and her focus is in Right Hemisphere Dysfunction and social cognition. Recently, she has begun her work as a researcher in a neuroscience lab studying reward sensitivity post brain injury.

### **Megan Lynch MA, CCC-SLP, CBIS**

Megan entered the field of speech pathology after experiences working as a lay chaplain at Cook County Hospital. She has worked for nearly a decade across the continuum of care in adult and pediatric settings, including acute care, inpatient rehabilitation, and outpatient. She has been a certified Brain Injury Specialist since 2016, is a former hospital Brain Injury Coordinator, and was awarded the title of Senior Speech Pathologist in 2019. She is passionate about TBI prevention and improving gun violence and its negative impact on youth.
